

1. KLEEN KEEP CS 101

KLEEN KEEP CS 101 is a highly efficient interim cleaning product for all types of carpets and upholstery. It is a superior concentrated formulation for carpet cleaning. This product comes with excellent cleaning properties making it ideal for interim cleaning.

Kleen Keep CS 101 is pH neutral, pleasantly scented in nature that gives it some unique properties such as gentleness to carpet and upholstery fabric fibers and consistent dry foam. Shampoo residue is easily removed by vacuuming, thus hindering rapid resoiling.

2. PROPERTIES

Appearance : Clear Yellow Liquid

pH(1% solution) : 6~ 7

Specific Gravity @ 25°C: 0.98 – 1.1 g/cm²

3. APPLICATION AND DOSAGE

To Start

Proclean heavy traffic areas with a carpet pile brush and then vacuum the entire carpet. Or Brush vacuum the entire carpet. Remove spots or stains by refereeing to the Standard Operating Procedure Guide. Prepare uphoistery fabrics accordingly.

Dilution

Light Soil : 500 ml Kleen Keep CS 101 to 10 litres lukewarm water (5% solution).

Heavy Soil : 1 litre Kleen Keep CS 101 to 10 litres lukewarm water (10% solution).

Application

Fill spray device with the recommended dilution of Kleen Keep CS 101 and pre spray the carpet. Do not allow the pre-sprayed area to dry. Clean the entire area with the appropriate injection / extraction machine.

Spot / Stain Removal

Draw some Kleen Keep CS 101 from the bottle to treat stubborn spots / stains, allow to act briefly, rinse with lukewarm water and immediately wet vacuum. Repeat as required. If solvent soluble spots / stains (asphalt, grease, oil etc) remain, allow the previously treated area to be dry thoroughly before applying **P.O.G Spotter Gel** and blot with a clean cloth.

Carpet Area w.r.t dosage

1 litre Kleen Keep CS 101 for approx 100-200 m³ (depending upon carpet type and product dilution).

Refer to the Standard Operating Procedure guide for detailed instructions.
