

HEAT EXCHANGER

Customer faith well-kept
for lifetime.

After Cooler Heat Exchanger, Heat Exchanger Spare Parts, High Pressure Pipeline System, Industrial Boiler Coil, Industrial Chemical Reactor, Industrial Magnetic Agitators, Industrial Piping System, Industrial Pressure Vessel, Industrial Retubing Of Heat Exchanger, Industrial Steam Coil, Industrial Thermic Fluid Coil, Industrial Tube Bundle Heat Exchanger, Limpet Coil, Magnetic Agitators For Chemical Industry, Stainless Steel Evaporator, etc.

TUBE BUNDLE HEAT EXCHANGER

**INDUSTRIAL TUBE BUNDLE HEAT
EXCHANGER**

AFTER COOLER HEAT EXCHANGER

About Us

Starling Engineering Works Pvt. Ltd is a name to reckon with innovation and engineering superiority, providing high-end thermal solutions and mechanical systems of the highest quality in the industry. Through its long-standing adherence to high performance, reliability, and efficiency, the company is a manufacturer, supplier, exporter, and service provider. The offerings range from stainless steel heat exchanger, tube and shell heat exchanger, tube bundle heat exchanger, after cooler heat exchanger, industrial magnetic agitators, industrial pressure vessel, industrial piping system, industrial steam coil, and limpet coil.

Each product is a testament to profound engineering expertise and decades of technical excellence, crafted to meet challenging industries that depend on trouble-free heat transfer and stout mechanical support. The structures are precision-optimized to deliver fast heating or cooling, consistent thermal distribution, and high turbulence generation to ensure improved mixing. The small, space-efficient constructions are designed to incorporate seamlessly into legacy systems and are built to last, withstanding thermal cycling, high pressure, extreme temperatures, and long-term operation in challenging environments. The strategy of the company lies in balancing energy-efficient operation and low fouling tendency with quality with very little maintenance. Leak-free sealing technology, rugged corrosion-resistance materials, and superior chemical compatibility provide a longer lifecycle with predictable performance. Every component is designed for precise process control, enabling sustainable manufacturing and better product quality consistency across operations.

Key Facts

No of Staff	30
Year of Establishment	1972
No of Production Lines	1
OEM Service Provided	No

Our Products

**Stainless Steel Heat
Exchanger**

**Tube And Shell Heat
Exchanger**

**Industrial Retubing Of
Heat Exchanger**

**Industrial Magnetic
Agitators**

**Magnetic Agitators For
Chemical Industry**

**Industrial Pressure
Vessel**

**Upto 100 MM Thickness
Pressure Vessel**

**Industrial Piping
System**

**High Pressure Pipeline
System**

Industrial Steam Coil

**Industrial Thermic
Fluid Coil**

Limpet Coil

**Industrial Chemical
Reactor**

**Stainless Steel
Evaporator**

Steel Storage Tank

Industrial Boiler Coil

ADDRESS

**10, Clive Row, 5th Floor, Kolkata,
West Bengal, India (700001).**
