## About Us

Pigments are the basic chemicals that provide colors to different objects ranging from plastic to yarns and cosmetics. However, high quality pigments are harder to find because of which people often fall for poor quality pigments. At Dhanlaxmi Pigments Pvt. Ltd., we as a manufacturer strive day and night to bring the best collection of pigments within the reach of our customers so that they can easily grow their business and elevate their sales.

The genesis of Dhanlaxmi Pigments Pvt Ltd. began in the year 1990 with an aim of manufacturing a wide variety of pigments like a 15:3 Blue Beta Pigment, 15:2 Alpha Blue Pigment, Copper Phthalocyanine Blue (CPC Blue Crude), Pigment Alpha Blue, Organic Pigment, Pigment Blue etc. Our Panoli (Gujarat, India) based business is growing because of its high quality products, qualified management, ability to understand customers requirements and working methodologies. At present, we with the help of our manufacturing facility are able to deliver the best possible solutions to our customers so that they can attain success within different markets. On-time and safe deliveries of our products are some other reasons why our customers love to do repeated business with us.

## Key Facts

<b>Nature of Business</b>	Manufacturer
