About Us

Established in 2003, Deepak Electric Works has built a strong reputation as a reliable manufacturer, trader, and supplier of high-quality electrical products. Located in Panipat, Haryana, India, our company is committed to delivering dependable solutions that support industrial, commercial, and infrastructure applications. With years of experience in the electrical sector, we understand the importance of durable equipment, consistent performance, and safe electrical systems. Our organization focuses on maintaining quality standards while providing products that meet modern industry requirements.

We offer a wide range of electrical components designed to support efficient power distribution and system management. Our product portfolio includes Cable Trays, Socomec Changeover Switch, Electric Control Panel, High Voltage ABB MCB and Trinity Apfcr Relay. These products are widely used in manufacturing plants, commercial facilities, and power management systems. Each product we supply is selected or manufactured with attention to performance, durability, and technical reliability. Our goal is to provide electrical solutions that support smooth operations and long-term efficiency.
