## About Us

The business enterprise DP Chemicals, is an eminently renowned name amongst the markets across the nation which serves customers a variety of Chemicals, Safety Equipment, Urinal Fiber and a lot more. Working as a Manufacturer and Exporter of foretold products we always promise that each one of our offering is of praiseworthy quality and will surpass the expectations of customers once they avail from us. We strongly commit ourselves towards becoming a business enterprise on which customers can blindly rely for availing the products of this category. The offerings of our company are priced at easily affordable rates, owing to which we have been able to attract a large number of clients. Our guiding light, Mr. Dinesh Patidar- The Owner of our company, is a proficient personnel, who prepares strong strategies for each step we take in this industry. It is due to his expert guidance that we have remarkably excelled in the markets and have succeeded in every work so far.

Established in the year 1979, BL Traders Group of Companies, is a business entity which was the first manufacturing facility of Industrial Development Area (IDA) Kukatpally (Hyderabad, India). Ever since the inception, this company has always been appreciated by the customers across the nation for serving Dye intermediates to the companies in Gujarat (the textile hub of South East Asia). Almost a decade ago, this business enterprise shifted its focus towards producing the most effective and praiseworthy quality Pharmaceutical intermediates and specialty fine chemicals. Now, it is engaged in catering its products to domestic as well as international Pharmaceutical entities. It has developed a couple of facilities IDA Kukatpally for manufacturing intermediates for APIs and another in IDA Mankhal which specializes in manufacturing of specialty fine chemicals, advanced intermediates and APIs. This group of companies is renowned for its strict adherence to the norms of quality as each one of its plant functions under strict adherence to the CGMP compliances.
