About Us

Set up in the year 1998, we, PT Instruments Pvt. Ltd., are a prominent firm, engaged in supplying high quality Plastic and Self Latching Connectors. As an experienced importer, wholesaler/distributor, supplier and trader of various range of Push Pull Connectors, LEMO Connectors, Electrical Connector, Electrical Cable Connector and Plastic Connectors, we have earned our name in the industry for supplying best-in-class products at an affordable price range. Our offered items are recognized by the customers for their shockproof body, fine completing, lightweight nature and reduced size. The items we offer locate their broad applications in industrial control, test and estimation, sound video, medical, information transfers and numerous different ranges. Prior to the delivery, every one of our items is thoroughly analyzed on certain industry laid parameters in order to guarantee their faultlessness.

Quality Assurance

Upholding finest quality in the business policies and product-line is of highest significance for our enterprise. Due to this reason, we source all our products from established companies in the industry, which are known for qualitative range. Further, we have a team of stringent quality analyzers who are employed by us to meticulously check all the sourced products and safeguard that no error has taken place during transportation, loading and unloading. These specialists inspect every product with the use of modern testing tools at a well-run quality testing unit to ensure flawlessness. Moreover, we ensure we pay attention towards fairness in all the business policies & dealings.

Our Team

Our group is operated by a team of deft professionals, which empowers us in carrying out all the business responsibilities in a well-coordinated manner. The specialists employed with us implement their comprehensive knowledge and industry knowledge and complete the allocated tasks with utmost perfection and ease. All our team members work in close sync with each other so as to achieve the organizational objectives in an admirable way. Moreover, consistent training sessions and workshops are conducted by us, to keep our colleagues updated with modern technologies and the changing market undercurrents.
