- Infrared photocell protection
- Alarm function, for illegal intrusion and reverse intrusion
- Infrared sensor to prevent pinch pedestrians
- Anti-trailing function
- Anti-breakthrough function
- When power off, SWINGTILE will open automatically

## SWINGTILE

SWINGTILE is made from brushed stainless steel which creates a seamless and elegant access point to blend into most indoor environment. Optical Swing Turnstiles are suit for elegant and luxury entrance solutions.

Code	Model	Material	MCBF	IP Rating
54610	Swing tile A	SS 304	2000000	IP 54
54612	Swing Tile S	SS 304	2000000	IP 54

### Ideal For

1. Amusement park
2. Convention centers
3. Industrial areas
4. Supermarkets
5. Sports centers
6. Metro and public
7. Airport terminals
8. Mass rapid transit system
9. Museum
10. Entertainment Centre

### Options Available

1. LED counter display
2. Speech reminder
3. Light, sound alarm
4. Access Control Integration
5. LED Indication

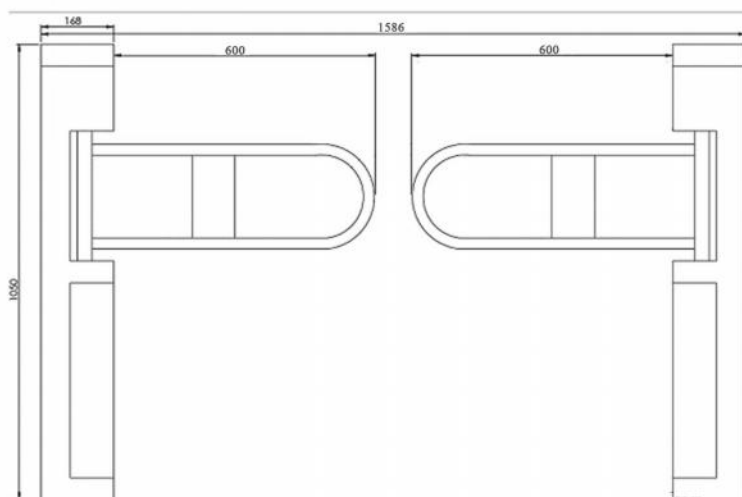

**SWINGTILE**

## Modes of Access

1. Magnetic Card
2. EM Card
3. Barcode Ticket
4. Barcode Pass
5. Biometric Machine
6. Palm Vein Reader
7. IRIS Scanner
8. Plastic/Metallic Coin

Model	SWINGTILE
Casing material :	304 SS
Power Supply	AC220V±10%, 50Hz±10%
Power	40 W
Operating Voltage	24V
Working Environment	Indoor, Outdoor
Working Temperature	-20°C +70°C
Relative Humidity	≤90%, no condensation
MCBF	2000000 Cycles
Passage Clearance	900 mm
Arm Turning Angle	± 90 Degrees
Pass Speed	35-40 Person/minute
Pass Direction	Bi-Directional
Communication	RS 485, TCP/IP
Dimension	1050 mm X 168 mm
