

The background of the entire page is a molecular structure. The left half is a close-up of blue, reflective spheres connected by thin rods, set against a blue gradient. The right half is a similar structure but in white and light blue, set against a light blue gradient. In the top right, there is a dark grey square containing the 'TAPSTAR' logo.

Additive  
Masterbatches**

# Functional Additive Masterbatches

## TapStar VCI Volatile Corrosion Inhibitor

### Applications

Plastic sheets, bags, liners, stretch and shrink films used for the packing of ferrous and non-ferrous metal components.

## TapStar AR Rodent Repellent

### Applications

Cables, pipes, drip irrigation pipes, grain bags, films

## TapStar AM Anti-microbial Anti-fungal

### Applications

Car interiors, foam sheets, toilet seat covers, shower curtains, egg trays, floor mats, shoes, insoles, greenhouse films, shampoo & cosmetic containers, plastic table covers, etc.

## TapStar AM-PC Anti-microbial Anti-fungal for Polycarbonate

### Applications

All Polycarbonate articles/ components with transparency intact

## TapStar ART Rodent cum Termite Repellent

### Applications

Cables, pipes, drip irrigation pipes, grain bags, films, wood plastic composites (WPC)

## TapStar AS Anti-static

### Applications

Polymer processing operations like blow moulding, extrusion making films, bags, bottles, containers, anti-scratch films of electronic components, PET, BOPP, PE

## TapStar AF Anti-fog

### Applications

Films, cling films, bags, shrink wraps, containers that are used for packing fruits, vegetables, flowers & meat.

### **TapStar AD Anti-drip for Halogen Free Flame Retardant Formulations**

#### **Applications**

Halogen-free flame retardant formulations.  
HFFR cables and wires.

### **TapStar R Anti-ripening**

#### **Applications**

LDPE, BOPP film/Cling film/Bag/Moulded Containers  
used for packing fruits, vegetables, flowers & meat.

### **TapStar IV-Mod Viscosity modifier for Polyesters and Polyamides**

#### **Applications**

Increases intrinsic viscosity of polyesters for bottle  
grade polyesters, moulding and extrusion grade  
polyamide resins

### **TapStar LM Laser Marking**

#### **Applications**

PE, PP, PVC, TPU, PC and Nylon products  
including injection moulded articles,  
extruded items as well as blown films.

### **TapStar UV Ultra violet Protection**

#### **Applications**

Industrial Films , Automotive Components  
Plastic Packaging , Construction Products  
Agriculture Films

### **TapStar SCR Scratch Resistance**

#### **Applications**

Polycarbonate, PP, PMMA, ABS, ABS-PC transparent  
molded & extruded products

### **TapStar LDA Light diffusion**

#### **Applications**

PC, PVC, PMMA and PET transparent resin articles,  
LED, lampshades, light-diffusing plates

### **TapStar OR Odor Remover**

#### **Applications**

Used in the reprocessing process of HDPE & PP  
polymers used in Virgin plus used polymer mixture  
Used to remove odour from moulded components  
during processing.
