## About Us

Tag Automation is a well-known brand name in the market, which is a renowned distributor, supplier, and service provider of best-quality industrial automation products. Our product list consists of a large variety of mitsubishi fx5u-32mt-es compact plc, fx3g-14mt-dss compact plc, mitsubishi fr-a840-00038-2-60 vfd, mitsubishi fr-d720s-100sc-ec variable frequency drive, gt2508-vtwd mitsubishi human machine interface, s-t12 ac200v 1a1b mitsubishi contactor, and many more. These products are designed to provide higher processing speed, improved efficiency, and perfect integration for various industrial purposes. With in-depth knowledge of automation technology, we serve the changing requirements of industries with advanced solutions.

Tag Automation, set up in 2005 in Noida, Uttar Pradesh, India, is a prominent distributor, supplier, and service company of industrial automation products. Our product range includes messung plc, ac servo, hmi panel, compact plc, modular plc, hmi series, variable frequency drive, low voltage switchgear, and servo amplifiers. In addition to this, we also offer specialized services such as machine reconditioning, plc repairing, and plc training to ensure maximum system performance for our customers.

Through the state-of-the-art infrastructure and a skillful team, we effectively handle bulk orders as well as produce high-quality results. Under our mentor, Mr. Ajay Kumar Singh with more than 12 years of experience in automation, we are a niche company in the automated field. It is supported by our in-house quality testing division to ensure all our products meet and exceed customer and industry expectations, with a robust check process covering functionality, strength, performance, corrosion, and abrasion. We innovate in being customer-oriented, producing automation solutions for customers that add more productivity, dependability, and efficiency of operation.
