About Us

With over 30 years of industry expertise, Jayashree Group is a leading provider of innovative and high-quality automation & control. We specialize in a diverse range of products, from premium textiles to precision engineering components, serving sectors such as Material Handling, Steel, Cement, Textiles, Construction, and more. Our commitment to quality, reliability, and customer satisfaction has made us the partner of choice for businesses looking for excellence.

Over the years, we have expanded our portfolio to include a wide range of control and safety products such as advanced proximity switches, electronic speed switches, level sensors, electronic brakes, parameter monitoring systems, and transducers. We are also pioneers in reactor-based soft starters and offer custom-built starters for LT/MV motors up to 35 MW. Our state-of-the-art manufacturing facility, spanning approximately 3,600 square meters, is equipped with modern production and testing equipment. Backed by a team of over 170 skilled professionals, we design and develop more than 15 complete product lines in-house. With over 3,500 satisfied clients across India and 24+ countries, we remain dedicated to innovation, quality, and customer satisfaction in the 21st-century automation industry.

Key Facts

No of Staff	50
Year of Establishment	1972
OEM Service Provided	No

Our Products

Magnetic Proximity Switches

Inductive Proximity Switches

Optical (Ir) Proximity Switches

Capacitive Proximity Switches

Belt Load Monitor

Belt Tear - Rupture Monitor

RME21x - RME226x Speed Switches

RM221x - RM226x Speed Switches

Level Sensor

Optical Barrier

HFSR Soft Starter

Electronic Brake
