# Insulin Syringes

**ACCU-SHOT™**  
MEDICAL DEVICES

## ACCU-SHOT U40 & U100 (with Ultra Thin & Short Needle)

### Packing

#### Single Pack

100pcs x 20 boxes = 2000pcs

#### Monthly Pack

30pcs x 20 container = 600pcs

#### Multi Pack

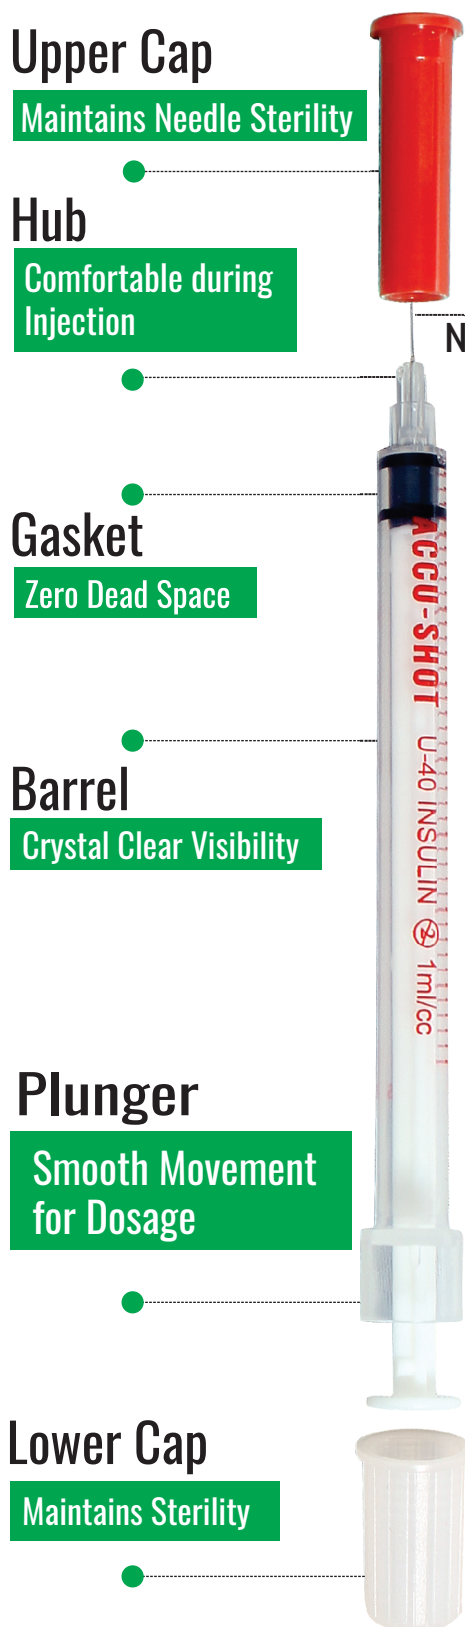

100pcs x 20 boxes = 2000pcs

### Sizes

Product Code	Nominal Capacity	Strength of Insulin	Needle Gauge	Needle Length	Colour Code of Top Cap
1011	1 ml	U - 40	31G	6 mm	Red
1013	1 ml	U - 100	31G	6 mm	Orange
-	0.5 ml	U - 40	31G	6 mm	Red
-	0.5 ml	U - 100	31G	6 mm	Orange

\* Also available in needle sizes of 28G/29G/30G

## Technical Specification

### Short Needle

Intramuscular Safety

### Needle Wall

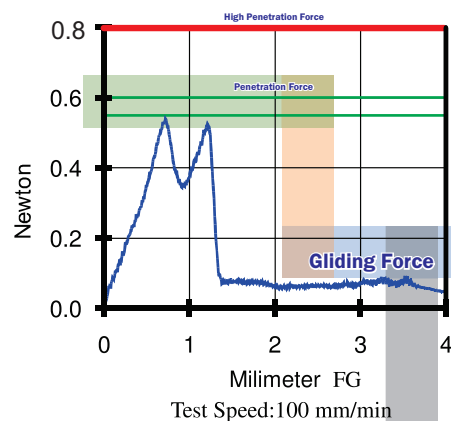

Thinner Wall Technology for Lesser Pain

### Needle Straightness

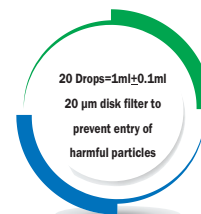

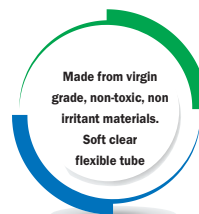

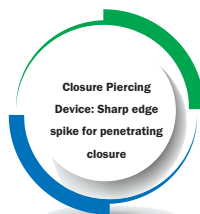

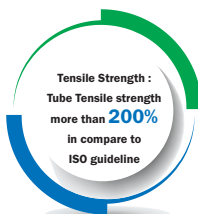

Using Camera Inspection

### Needle Tip

Reduced Penetration Force

*Be aware be safe ...*

## ACCU-SET STANDARD VENTED (IV Set Standard 15 mm Vented)

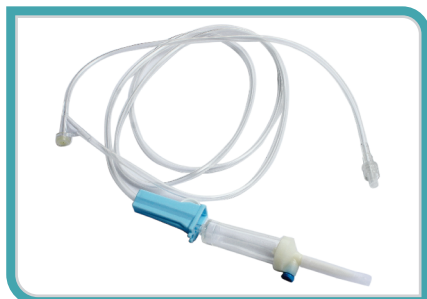

- Specially designed clamp to maintain constant flow rate for many hours
- Assure high bacteria retention
- Ensure effective air ventilation
- Allow only filter air supply into solution.

## ACCU-FLOW VENTED / NON VENTED (IV Set Vented / Non Vented with Latex Bulb)

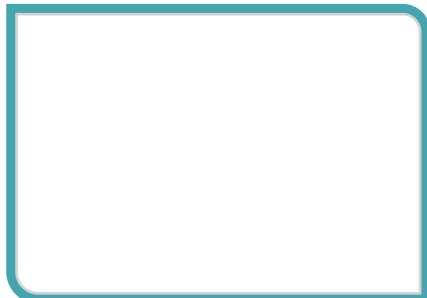

- Free from harmful chemical **DEHP**
- Specially designed clamp to maintain constant flow rate for many hours
- Y –site for convenience of admixture injections
- Male connector to accidental loss of medication
- Made from virgin grade, non-toxic, non irritant materials
- 0.5µ air filter assure high bacteria retention
- Ensure effective air ventilation
- Allow only filter air supply into solution.

## ACCU-FLOW CONNECT (IV Set Vented with Male connector & Y site)

- Free from harmful chemical **DEHP**
- Specially designed clamp to maintain constant flow rate for many hours
- 0.5µ air filter assure high bacteria retention
- Ensure effective air ventilation
- Allow only filter air supply into solution.
- Y –site for convenience of admixture injections
- Male connector to accidental loss of medication

## ACCU-FLOW PURGE (IV Set Vented with Purge Filter 0.2 µ & Y Site)

- Free from harmful chemical **DEHP**
- Specially designed clamp to maintain constant flow rate for many hours
- Y –site for convenience of admixture injections

## Why DEHP ?

DEHP, which is an abbreviation for di(2- ethylhexyl) phthalate, is a manufactured chemical that is commonly added to plastics to make them flexible. When DEHP flows in the human veins it may cause various health effects

### HEALTH EFFECTS OF DEHP

Birth Defect  
Reproductive and  
Developmental  
Toxicity

Risk of  
bronchopulmonary  
dysplasia

Phthalates  
could cause an  
increased incidence  
of liver tumor

It interferes  
with  
testosterone  
synthesis

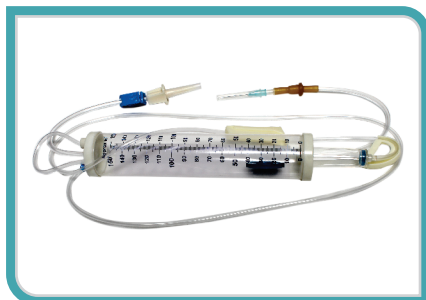

Might also cause  
Cancer

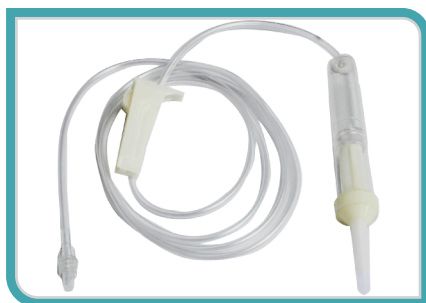

## MICRO-SET

- Made from virgin grade, non-toxic, non irritant materials
- Free from harmful chemical DEHP
- Drop rates that can easily be measured
- Macro drip is usually 15 or 20 drops per mil

## ACCU-PEDIA (110/150)ml (Measured Volume Fluid Administration Set)

- Free from harmful chemical DEHP
- Specially designed clamp to maintain constant flow rate for many hours
- 60 Drops=1ml  $\pm$  0.1ml
- Floating shut off valve to prevent air embolism
- 0.5 $\mu$  air filter assure high bacteria retention
- Ensure effective air ventilation
- Male connector to accidental loss of medication

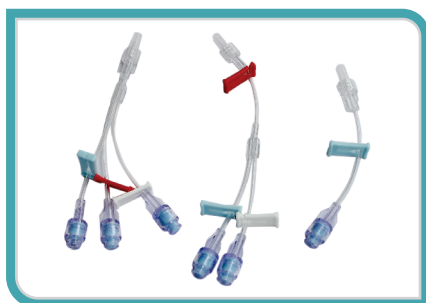

## ACCU-FUSION PLUS (Blood Transfusion Set Non Vented)

- Free from harmful chemical DEHP
- Double chamber provide easy observation of drops at lower chamber
- Specially designed roller clamp for better flow control for many hours
- 20 Drops=1ml  $\pm$  0.1ml
- 0.5 $\mu$  air filter assure high bacteria retention
- Ensure effective air ventilation
- Longer filter for maximize fibrin & debris filtration

## ACCU-DIAL (Flow Regulator with Extension Line)

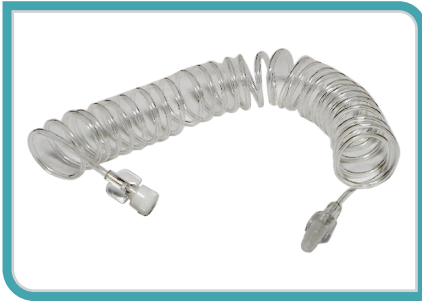

- Made from virgin grade, non-toxic, non irritant materials
- Free from harmful chemical DEHP
- Calibrated Flow Regulator for accurate dose
- Male connector to accidental loss of medication
- Soft and Hi pressure extension Line for good flow of medication

## ACCU-SITE / SITE PLUS (UNO / DUO / TRIO) (Needle Free Valve with Extension Line PVC) / Polyurethane (PU)

- Free from harmful chemical DEHP
- Flat smooth surface makes easy to swab & disinfectant
- Needle free design reduce needle stick injury
- Metal free valve enables to be used in MRI
- Flat smooth surface makes easy to swab & disinfectant
- High chemical compatibility & lipid resistance

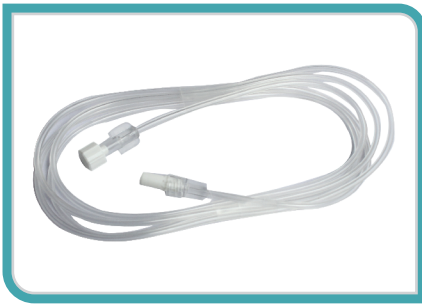

## ACCU-SPIRO / SPIRO PLUS 200cm

(Pressure Extension Line Spiral PVC / PU)

- Made from virgin grade, non-toxic, non irritant materials
- Kink resistance PUtubing with smooth inner surfaces for smooth flow
- 6% taper on luer allow connection with a wide variety of standard medical devices
- Low priming volume & high flow rate
- Kink resistance DEHP Freetubing with smooth inner surfaces for smooth flow

## ACC-LINE / LINE PLUS (50/100/150/200/250)cm

(Pressure Monitoring Line/ PU Extension Line)

- Made from virgin grade, non-toxic, bio compatible materials
- Kink resistant DEHP Free Tubing / PU Tubing with smooth inner surfaces for smooth flow
- 6% taper Male-Female lock connector to connect with a wide variety of standard medical devices
- Can withstand a pressure up to 600psi / 500psi
- Low priming volume & high flow rate

## ACCU-WAY

(Three way stop Cock)

- No leakage under 500psi
- 6% taper on luer allow connection with a wide variety of standard medical devices
- Three arm handle with clear arrow indication for smooth and easy operation
- Idle for administrating contrast medium/ fluid during CT and MRI Scan.
- Minimum residual fluid volume

## ACCU-WAY (10/15/25/50/100/150/200)cm

(Three way stop Cock with Extension Line)

- Kink resistant DEHPFree tubing with smooth inner surface for smooth flow
- No leakage under 500psi
- 6% taper on luer allow connection with a wide variety of standard medical devices
- Three arm handle with clear arrow indication for smooth and easy operation
- Idle for administrating contrast medium/ fluid during CT and MRI Scan.
- Minimum residual fluid volume

# Disposable Syringes

**ACCU-SHOT™**  
MEDICAL DEVICES

## ACCU-SHOT ONE

- Made from virgin grade, non-toxic, non irritant materials
- Packed with Feather edge Needle for smooth penetration.
- Bold and clear marking for easy measurement.

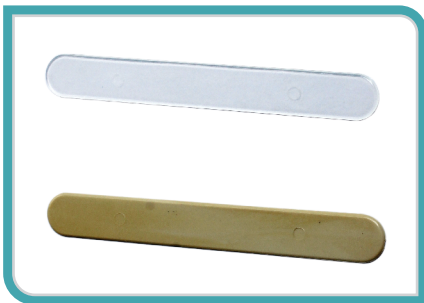

# General Disposable

## ACCU-CLAMP

(Cord Clamp)

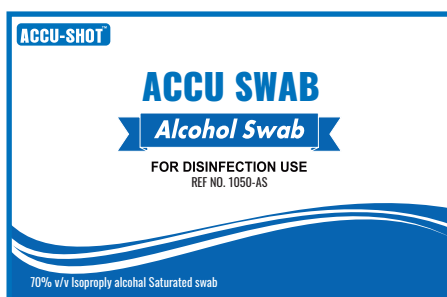

- Made from virgin grade, non-toxic, non irritant materials
- Fine grip to hold and lock of the clamp
- Used for clamping the umbilical cord of newly born babies

## ACCU-DIP

(Tongue Depressor)

- Made from virgin grade, non-toxic, non irritant materials
- Latex Free
- Use as examination of mouth and throat

## ACCU-SWAB (Alcohol Swab)

- Premium, nonwoven pad material saturated with 70% isopropyl alcohol
- Thick, soft fabric
- Sterile, Packed individually in poly-lined foil pouch.

## About us

**SPM Medicare Pvt. Ltd.** that has set-up a state-of-the-art facility for manufacturing of medical devices focusing on patient safety and quality. We specialize in Sterile Single- Use Insulin Syringes, Infusion Therapy, 1 ml disposable syringe and General Disposables

Our state-of-the-art facility is centrally located in the heart of the industrial hub of National Capital Region (NCR) of India, giving us huge advantage in meeting demands and reducing transportation time. Further, the facility has been designed to maintain Good Manufacturing Practices in respect of safety, hygiene, and quality as per international standards such as EN ISO 13485:2012 from Institute for Testing and Certification, Czech Republic.

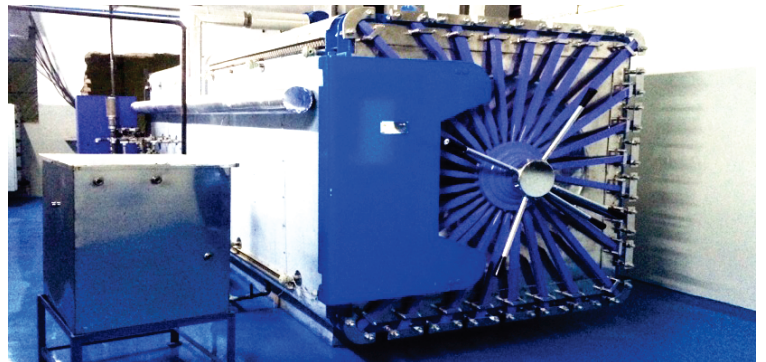

**Molding Area**

**Fully Automatic Assembly Lines**

**World Class Laboratory**

**ETO Sterilizer Machine**
