About Us

Shreetech Life Science Pvt. Ltd., a highly professional firm, known for our quality commitments and dedicated services to several Indian industries & research institutes. Through our association with various world renowned companies & innovation leaders, as a supplier, we are offering comprehensive systems in multiple product range including analytical instruments, water testing & purification and chromatography. Our organization is proud of being a prominent solution provider, which with its quality & customer centric approaches has been serving the Indian Market including all the major giants from the public and private sector. In North Indian market, Shreetech is having its monopoly as a supplier, which we are passionate for expanding across the country.

Shreetech Life Science Pvt. Ltd. is among the prestigious suppliers and distributors of Lovibond Colour Measurement Instruments, Lovibond Water Testing Equipments, Elga Water Purification Systems and SOCOREX Precision Liquid Volumetry. We are acquiring these products from dependable brands, after which these are stored in our warehouse located at M.G. Road, Ghitorni, New Delhi, India. Our products are based on futuristic technology, which makes them highly durable and cost effective. We provide our customers with quality guarantee so that they can invest their money in our products with full confidence and trust. With our positive future vision, we are on the path to have a recognition position among the leading distributing companies.
