About Us

ESAB's story is the tale of welding. When our founder, Oscar Kjellberg, invented the world's first coated welding electrode in 1887, he founded a firm whose creativity and unwavering standards helped shape welding history. For years, ESAB India Limited has been a leading manufacturer and supplier of Welding Equipments, Welding Products, Welding Consumables, Material Handling Equipments, Portable Inverters, and Welding Automation, Cutting Systems, Welding Accessories, etc. As a result, ESAB has established itself as a global leader in welding goods and innovative cutting systems. ESAB is a customer-focused organization that prioritizes continuous innovation and development. Colfax Corporation, one of the world's biggest diversified industrial manufacturing businesses, purchased ESAB in 2012. Colfax, like ESAB, is a customer-focused organization that prioritizes continuous innovation and development.

ESAB is structured to produce efficient, high-productivity solutions that satisfy client objectives while exceeding their expectations, regardless of market category. Continuous development of processes, materials, and know-how is focused on each discipline to address the difficulties given by the diversity of industry sectors we service.

Our clients assess our performance as the global leader and expert in the field of Industrial Gas Equipment, ESAB Welding Consumables, Reclamation Welding Electrodes, CNC Plasma Cutting Machines, and others. These are applicable for medical, high purity, and industrial purposes. We strive to surpass our customers' expectations in all of our activities. For this, we follow the global Quality Management System. For its implementation, maintenance and enhancement, we undertake various steps. This also helps to assure the highest quality in all of our global activities, from product development and buying through manufacturing, sales, logistics, and customer support.
