

# Transforming PET Resin to Preform to Bottle

## About Us

- La Organiq is a manufacturer of plastic preforms, bottles and containers in North India for a variety of markets including food, personal care, healthcare and speciality beverages. We produce plastic preforms, bottles, containers from PET resin and offer a comprehensive array of molding and decorating capabilities.
- La Organiq currently provides a wide range of standard and custom solutions. Our talents in product design and specialized manufacturing allow us to break through the barriers of traditional blow molded products to provide innovative solutions.
- Injection Molding and Two-Step Injection Stretch Blow Molding Facility
- **Preforms** from 5 grams up to 51 grams
- **Bottle** size ranging from 30ml to 5 L
- Molds range from 2 to 32 cavities
- Excellent gram weight control with superior finish and Uniform wall thickness

## PET - The Sustainable Packaging Choice

- **Recyclable** - PET has an excellent environmental profile. Used PET bottles can be washed, granulated into flakes and reshaped as PET bottles or employed as material for strapping, carpeting, fiber filling, etc.
- **Lightweight** - 10% weight of an equivalent glass pack, PET bottles reduce shipping costs by about 30%, and because the material in the wall is thinner, shelf utilization is improved by 25% on volume compared to glass.
- **Safe** - PET bottles are tough and virtually unbreakable during production, storage and transportation.
- **Design Flexibility** - PET is suitable for bottles, containers of all shapes, sizes, neck finishes, designs and colors.
- **Long Shelf Life** - PET has very good shelf-life performance.
- **Good Barrier** - The low permeability of PET to oxygen, carbon dioxide and water means that it protects and maintains the integrity of products. PET also has good chemical resistance.
- **Crystal Clear** - PET offers clear presentation of the product.

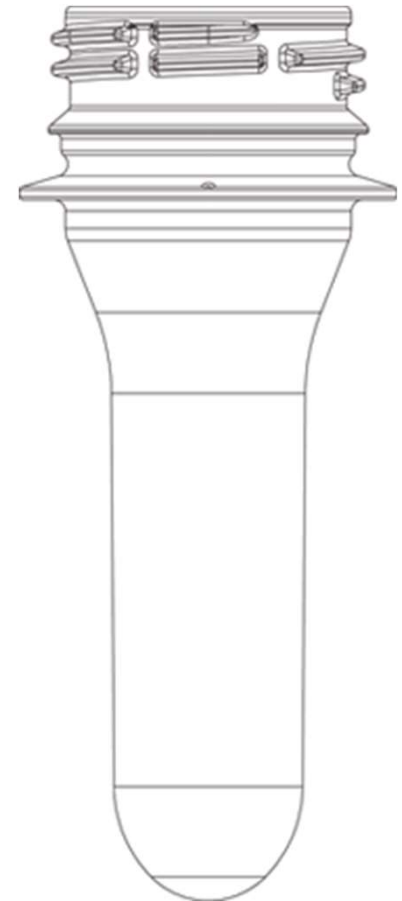

## PET Preforms

- La Organiq supplies a complete range of PET preforms with a wide variety of weights, colors and sizes for diverse applications. Using state of the art machines, La Organiq makes preforms that are unmatched in finishing and performance.
- Injection Molding Facility
- Preform size ranging from 5 Gm to 80 Gm
- Molds range from 2 to 32 cavities
- Excellent gram weight control with superior finish and Uniform wall thickness

## PET Preform Range

Neck Size	Neck Type	Gram Weight	Height	Usage
19 mm	ROPP	7 gm		Cosmetic/Pharma
19 mm	ROPP	9 gm		Cosmetic/Pharma
19 mm	ROPP	11 gm		Cosmetic/Pharma
24 mm	ROPP	21 gm		Cosmetic/Pharma
25 mm	ROPP	21.5 gm		Cosmetic/Pharma
28 mm	ROPP	32 gm		Cosmetic/Pharma
28 mm	ROPP	38 gm		Cosmetic/Pharma
28 mm	TST	9.5 gm		Cosmetic/Water/Oil
28 mm	TST	13.5 gm		Water
28 mm	TST	18 gm		Water/Oil
28 mm	TST	19 gm		Water/Oil
28 mm	TST	21 gm		Water/Oil
28 mm	TST	31.5 gm		Cosmetic/Pharma
28 mm	TST	37 gm		Cosmetic/Pharma
28 mm	CTC	15.5 gm		Edible Oil
28 mm	CTC	21 gm		Edible Oil
28 mm	CTC	24 gm		Edible Oil
28 mm	CTC	26 gm		Edible Oil
38 mm	CTC	51 gm		Edible Oil
28 mm	CSD	12.5 gm		Carbonated Drinks
