

LOW TENSION CURRENT TRANSFORMERS

BEST QUALITY PRODUCTS AT REASONABLE PRICES

11kv Metering Cubicle, 33 KV Oil Cooled Current Transformer, Bushing Current Transformer, CT PT Metering Unit, Cast Ring Type Current Transformers, Control Transformers (Air Cooled), High Voltage Current Transformer, Indoor Resin Cast Current Transformer Upto 33kV, Instrument Transformers (High Voltage), Low Voltage Current Transformer, Outdoor Oil Cooled Potential Transformers, Portable Current Transformer, Protection Class Current Transformer, Resin Cast Indoor Type Potential Transformer, Ring Current Transformer, etc.

RING CURRENT TRANSFORMER

PROTECTION CLASS CURRENT TRANSFORMER

SUMMATION CURRENT TRANSFORMER

About Us

Continental Engineers was established in the year 1983 in Jaipur, Rajasthan as an expert provider of Portable Current Transformer, Tape Wound Current Transformer, Instrument Transformers, 11kv Metering Cubicle, Combined Metering Unit, Potential Transformer, Oil Cooled Current Transformer, etc. We have been standing among the notable manufacturers and suppliers of the current transformers industry. For more than 30 years, we are reckoned as a leading name of the market with immense unrivalled technical and manufacturing expertise. Our major focus is to provide high-end current transformers uncompromising policy towards quality at affordable prices to make them available for all. We have gained ISO 9001:2015 Certification that ensures unmatched quality standards of the products. We follow stringent quality control methods in all areas of operations from Manufacturing, Marketing, Planning, Production to Inspection and Dispatch.

Continental Engineers is one of the most experienced and reliable manufacturing companies in the market of Instrument Transformers, Portable Current Transformers, Three Phase Metering Cubicles, Oil Cooled Current Transformer, and many other products. These are developed employing cutting-edge technology to support electronics and plants in many industries. In our Jaipur, Rajasthan (India)-based setup, we have cutting edge technology facilities and a sharp team of professionals to help us develop the offered entire range. We want to serve a large number of customers and attain immense success in this business line and for this, we are offering our products in many sizes and technical specifications. Every product of our company is provided to customers after checking the quality and ensuring perfection in all the aspects.

Key Facts

Nature of Business	Manufacturer
Primary Competitive Advantages	tape wound transformer,ring type current transformer,resin cast current transformers,control transformers,combined meter unit,metering unit,metering cubicles
No of Staff	150
Year of Establishment	1985
OEM Service Provided	No
ProductRange	tape wound transformer,ring type current transformer,resin cast current transformers,control transformers,combined meter unit,metering unit,metering cubicles

Our Products

Three Phase Combined Metering Unit

Cast Ring Type Current Transformers

Outdoor Oil Cooled Potential Transformers

Resin Cast Indoor Type Potential Transformer

Wound Primary Type Current Transformer

Ring Type Current Transformer

Bushing Current Transformer

Portable Current Transformer

Tape Wound Current Transformer

Three Phase Metering Cubicle

11kv Metering Cubicle

33 KV Oil Cooled Current Transformer

High Voltage Current Transformer

Instrument Transformers (High

CT PT Metering Unit

Low Voltage Current Transformer

ADDRESS

**F-23 C, Malviya Industrial Area,
Jaipur, Rajasthan, India
