The interactive presentation solution for business and education

- Exceptional visual clarity with advanced 65" full HD 1080p LCD display incorporating an LED backlight and reflection prevention.
- Switch on and ready to use without any need to calibrate display or configure software, saving time and improving presentation experience.
- Touch-screen allows you to write, draw, edit, erase, move, resize and save work. Highlight areas, flip through pages and zoom in and out.
- Simple user interface makes it easy to share, edit and save collaborative work with colleagues and students.
- Easy integration into existing corporate IT infrastructure with support for remote operation including on-off input selection.
- Wireless network option allows operation without the need for LAN cable connection.
- Network access is secured by authorised PIN code. Auto-erase of content follows shut down or auto-standby.
- Link up to 20 D6510 interactive whiteboards and configure settings centrally. Allow up to 20 more remote users to view presentations.

For availability of models, options and software, please consult your local Ricoh representative.
