

WORLD BRAND SELF-PROPELLED FULL
FEEDING COMBINE HARVESTER

PART CATALOGUE

(RUILONG SERIES)

Jiangsu World Agriculture Machinery CO.,LTD

(Version 2019)

Prologue

The World Ruilong series combine harvester was designed and produced by Jiangsu World Agriculture Machinery Co., Ltd. With decades of research, development and practice, this series combine harvester has the characteristics of simple structure, convenient maintenance, high work efficiency, low failure rate, high cleanliness rate of grain and so on. It is suitable for harvesting rice, wheat, corn, soybeans, millet, sunflower seeds and other crops.

This manual is made according to the product drawings of World Ruilong series combine harvester, which can be used by the user to maintain and repair the harvester, select and purchase the spare parts, and can also help the user to understand the internal and external structure of the harvester.

This manual describes the components of the spare parts through illustrations. Each illustration is attached with a detailed parts list with the name and quantity of the parts. About the spare parts code, "GB" is the national standard of China, and "JB" is the standard issued by the former Ministry of Mechanical Industry of China. Therefore, when ordering spare parts, please write down the standard of the spare parts.

When purchasing the spare parts of World Ruilong series combine harvester, please indicate the harvester model, production date and factory number. According to this drawing book, you can find the spare parts name and its code, then describe the spare parts which you need accurately and completely, so that we can better serve you. Please comply with the following requirements to place an order for spare parts:

Page Number + Serial Number + Part Number + Part Name + Quantity

With the development of science and technology and the practical using requirements, the World Ruilong series combine harvester will be continuously improved and perfected, which may cause a little difference between the products and the catalog. Please take the actual object of the harvester product as the standard. If it is unclear, please contact Jiangsu World Agriculture Machinery Co., Ltd. (Tel: +86-0511-8801 2230) or our local dealer. Changes made to the product after its improvement will be revised in new parts catalog. Please understand us if there has no prior notice.

As this book involves a lot of contents, it is inevitable that there are deficiencies. We sincerely hope that our customers will give us your suggestions on product quality, performance and structure in a timely manner, so that we can further improve our products and perfect the using technology.

Jiangsu World Agriculture Machinery Co., Ltd. owns the copyright, change and interpretation rights of this spare parts catalog. No unit or individual may reprint, publish or copy this parts catalog without authorization.

Jiangsu World Agriculture Machinery Co., Ltd.
