Frame & Kwickstage System

METRO

FRAME SCAFFOLDS

are the most common type of scaffold because they are **VERSITILE**, economical, and easy to use.

They are frequently used in one or two tiers by residential contractors, painters, etc. But the **MODULAR FRAMES** can also be stacked several stories high for use on large-scale construction jobs.

KWIKSTAGE comprises of a cast array of easy change components that when used in conjunction with one another, provides an extremely adaptable scaffold **SOLUTION**.
