ESSENCE OF TREEZONE

Ensures Uniform Grading of Chips for Face & Core.

With a perfect surface finish due to the 6-head sander the panel is precisely calibrated for thickness.

12 Day light Multi-Opening Press -12 Boards in a single press Simultaneous Closing ensures uniform pressures and temperature.

Due to compact higher compression & the uniform flake layout in the core ensures a high screw holding strength in the core.

The unique 6 cylindereed press ensures perfect pressure & temperature uniformly across the length and breadth of every mats.

The short cycle press with 6 cylinders ensures perfect edge to edge lamination without any change of delamination.
