## About Us

Fluoropolymers have a wide application in different industries, ranging from transportation & automobile to electronics & chemical processing. India is one of the major manufacturer and exporter of fluoropolymer product in the global market. A proud part of this industry market is our company- Hitech Fluoro Products, which is formed for serving finest PTFE that includes PTFE Sheets, PTFE Plates, PTFE Rods to the market as an exporter, manufacturer and supplier. We are officially certified by ISO 9001:2015, which says a lot about our quality focus and strict measures towards regulating it. Even though, our establishment is just two years old, despite of that we have built a renowned brand name in market as one of the major dealers of PTFE products. We use the latest technology and most advanced methods to manufacture our products. Our manufacturing unit is well equipped and well staffed as a result we are making high quality products in efficient quantities. We stand out of the competition when it comes to the quality of the products that we offer. Not just this, we offer this supreme quality at the most competitive prices.

Hitech Fluoro Products, situated in Vasai, Maharashtra (India), is a company working to serve the finest PTFE. We are a very reputed name in the market, our ISO certification has helped us in getting this popularity. The quality of our products is ensured by our hard working personnel by conducting strict checks at every stage of manufacturing process. Right from the collection of raw material to production and packaging process, every step is ensured with absolute safety. Further, our smart marketing strategies, clarity in deals and planned quality assurance policy have help us earn the loyalty and trust of many clients.
