## About Us

Skyrocketing temperatures is one of the major reasons for hot and humid surroundings to which providing a permanent solution in the form of cool tiles became the reason for our stepping in the industry. We are Homegenie Building Products Private Limited, a 2016 formed company, making living and working space cool with the help of innovative cool roofing technology that makes heat and cool insulation tiles and fights the deadly radiation released by sun. We are a manufacturer and wholesaler/distributor engaged in offering new age cool roofing solution in the form of Roof Cool Tile, Terrace Tile, Insulation Tiles, Weathering Cool Roof Tiles, Heat Proof Tiles and many others. Our offered collection of tiles is extremely strong, longer serving and is made for all terrace roofs. These tiles are money saving and worthy of spent money. German technology is used to make Rocotiles as it is this technology that aids in making perfect in shape, design and service of tiles.

There are many companies which were running even before we entered the industry and there are some companies which entered the industry after our establishment, but what we offer in terms of designs and quality is completely different from what our competitors produce and this one reason makes us a company worth dealing. Our range of Roof Cool Tile, Terrace Tile etc., is smooth, shiny and 100% waterproofing. 100% customer satisfaction is what we work to provide which is why we never say no to any order and promise our customers for delivery of all the orders on said time. We have a large production set-up in Vanagaram, Chennai where engineers, designers and unskilled people work in sync.
