About Us

Hygiene is a very important aspect in the medical field, as infections and germs need to be kept at bay. Q.E.D. Kares Packers Pvt. Ltd., incepted in the year 1996, is a manufacturer and supplier of a gamut of products meant for medical packaging products. Our product catalog includes Plastic Packaging Pouch, Header Plastic Bags, Sterilized Paper Rolls, Silica Gels, Desiccants, Chromatographic Columns, Blood Bags, Drain Bags, Autoclave Films, Poly Sterile Wraps, Clean Room Garments, Wipes, Silica Gel Pouches, Pouches, Rolls, Gusseted Pouches, etc. These are used in blood banks, pharmaceutical and other medical product manufacturing unit.

Located at Ghaziabad (NCR of Delhi), just 20 km from New Delhi, our factory and office are managed by our founder Mr. Piyush Ahuja, who has 18 years of vast experience in this segment. His dynamic leadership and futuristic vision are two factors which we rely on to grow exponentially.

Our Team

Our recruited quality control faculty, R&D analysts, procurement staff, production manager, experts, deals and promoting agents and so forth are knowledgeable with extensive knowledge about production of Laminated Pouches, Drain Bags, Poly Sterile Wraps, Tyvek Pouches, Film Pouches, Foil Pouches, Silica Gel Pouches, etc., which empower them to manufacture the medical packaging items in consistence with the prerequisites of pharmaceutical businesses.

Quality Assurance

Quality forms the crux of our existence and is upheld under all circumstances. All our products like Blood Transfusion Bags are approved by the requisite quality assurance authorities, thus making them the best option available in the industry. A team of quality inspectors keeps a stringent vigil on all the processes carried out in the organization, right from the procurement of raw materials to the delivery of finished products.

The base material is Tyvek, PE Film, Foil Film and others, which we procure from reliable vendors. These material are capable of withstanding gamma and ETO sterilization. We are also using a series of multi piece and rested packages. For Tyvek covers, we use foil bags as the secondary material. All the finished medical packaging products are put through a series of tests and checks to judge them on various parameters, so that only the best reaches our clients at all times.
