About Us

K V Metachem is a partnership firm registered under Indian Partnership Act 1932, in a prime location of Ahmedabad, Gujarat, India. It was a couple of years back when Mr. Krunal Patel and his partner put the business idea into operation. The manufacturer, importer & exporter deal in a variety of Minerals, Refractory Material, Concrete Mix and Rice Husk Ash Powder. The Micro Silica and Rice Husk Ash are processed making use of latest processing techniques, based on the defined quality standards. We ensure our existing and new customers the delivery of consistent quality products, that are effective, pure, safely packed, chemical free, reliable to use and have longer shelf life. We use safe and waterproofing material for the packaging of products and guarantee safer deliveries.

A couple of years old company in Ahmedabad (Gujarat, India) is qualified to serve worldwide a range of Concrete Mix, Rice Husk Ash Powder, Minerals, and Refractory Material. We, K V Metachem, are led by Mr. Krunal Patel in partnership is into import and export of Silicon Carbide, Graphite and Rice Husk Ash. The production of each kind of product requires to follow a specific technique and all production employees are trained to carry out the methodologies making use of outfitted machinery and tools. The products once produced are tested and then packaged for safe storage and delivery. We supply our range to customers hailing from foundry, cement, concrete, refractory and infrastructure industries.
