About Us

Pawan Engineering Works is a company which was founded in 2006 and based in India. It operates as a manufacturer and supplier of hospital equipment including Electric Labour Delivery Room Bed, Stretcher On Trolley, Sterilizer Electric, Instrument Cabinet, Surgeon Stool, etc. The products manufactured by us are widely used in hospitals, clinics, institutes, healthcare centers and various other medical facilities. The company aims to provide high-quality hospital equipment which meet the standards of the healthcare industry. Thus, all the operations related to designing, developing, quality testing, etc. are done in-house by our own skilled professionals by using modern amenities.

It's been more than a decade that our company has been engaged in the medical sector and attained a strong foothold in the domestic market. The unmatched quality we have been maintaining since our incorporation are really appreciated by the clients and they trust us completely. Some of the core values which we have been following in our business right from the beginning are honesty, excellence, teamwork, punctuality, transparency and innovation. By following these values in our work, we are able to achieve excellence in every field. With the support of our employees and associates, the journey of our firm has remained smooth.
