Introduction

CIS was incorporated in 2006 with all legal approvals & compliances required by clients. Founders of CIS are from engineering background having expertise in respective domains for performance and perfection. CIS started its operation with 15 employees from Faridabad and today it has more than 850 employees deployed at various sites and its growing day by day. It started from a small office in Faridabad and today it has its offices in Delhi/NCR, Lucknow & Bengaluru.

CIS is into executing Projects/ AMC's (Comprehensive & Non Comprehensive), MEP services for various clients across India. CIS provides the comfort of technical expertise to IT & IT enabled industries, Hotels, Residentials, Commercial, Malls, Multiplexes and Hospitals, Other industries units & Institutional buildings.

Approach:-

CIS believes in establishing long lasting client relationships by taking ownership of the client's goals, creating cost effective engineering and being responsive to client requirements.

We are committed to the success of projects we participate in and deliver this commitment via a creative core of experienced engineering staff supported by a continual inflow of the best team and technology tools.

Vision

Our vision is to become a leading MEP, Air Purification and Engineering solution provider all over the globe.

Mission

Provide smart engineering solution that reduce cost & enable our clients to meet their requirements.

Management:

Mr. Ajay , CMD (B.Tech Mechanical, Total experience of 20 years of various sectors of industries)

Mr. Vikas , MD (B.Tech Electrical, Total experience of 17 years of various sectors of industries)

Mr. Vijay , MD (B.Tech Electronics, Total experience of 8 years of various sectors of industries)

Mr. Manish Kaushik (M.Tech, Total experience of 10 years of various sectors of industries)

Licenses Held by the Company:

Number of years in business:

CIS is into MEP Since 2006

NSIC | MSME | OHS | ISO | OHSAS | CPWD | PWD

Our Team:-

A devoted team of professionals who constantly endeavor towards the growth of our organization and think of the benefit of our clients. Our entire team has profound knowledge and expertise in the production of our world-class range in conformation to the industry standards. Our workforce is well-versed with overall MEP services requirement for various projects.

- Our team comprises 98 people including
- 18 engineers including draftsmen & site engineering
- 30 technicians
- 30 helpers
- 3 IT Professionals
- 9 sales and marketing

CIS Services:

MEP services represent a significant cost factor on any project. So it is essential to provide a fully integrated design solution that is delivered on time, within budget and embraces the suitable technologies.

Our team delivers engineering design and specialist services across all applications including education, healthcare, sports and leisure, hospitality, residential, commercial and office buildings, retail and industrial buildings. Our range of services includes:

- Electrical and low current Engineering (HT & LT)
- Fire Fighting
- Plumbing Engineering
- HVAC Engineering
- Air Purification

Areas of Proficiency

Mechanical Engineering

- Heating, Ventilation and Air Condition (HVAC) Systems -SITC , O & M.
- Customized engineering solution.
- Plant (WTP & STP) Installation & Maintenance.
- Robotic duct cleaning (NADCA).

Plumbing Engineering

- Fire Detection and Suppression Systems.
- Building Plumbing, Drain, Waste and Vent Systems.
- Water Conservation and Recovery, Rainwater Harvesting.
- Automatic sprinkler & fire hydrant system.

Our Strengths:-

- Cost Effective
- As per clients requirements
- Safety
- Compliance with international standards of quality
- Efficiency
- Transparency
- Timely Execution

Electrical Engineering

- High voltage distribution systems.
- Substations and power distribution systems.
- Low voltage distribution systems.
- Lighting and Lightning controls.
- Grounding and Lightning protection systems.
- Building Automation systems.
