About Us

Indian retailers can use our **Nukkad Shops** e-commerce solutions such as **Nukkad Shops Aspire, Android POS Device**, Mobile Billing Software, Nukkad Shops Elite, and Nukkad Shops Pro to create a hyperlocal mobile application platform with real-time inventory. As a result, they can now take their stores online in seconds, with minimal effort and a 100% fill rate.

With smart POS from **Nukkad Shops Technologies (India) Private Limited**, customers are fully updated about stock levels and receive alerts once items run out. It enables the creation of Purchase Orders and Goods Receipts Notes. Our POS solution is built to help vendors increase revenue by improving customer retention, providing personalized sales recommendations, and alternative revenue streams. Customers can quickly create a webshop with our POS Solution. They can also set up a Mobile Shop Front and sell their products online right away. Nukkad Shops POS Software can handle multiple counters at the same time.

Our company **Nukkad Shops Technologies (India) Private Limited**, is based in **Telangana, India** as a **Service Provider** and **Trader** of Touch Screen POS Machine, **Dino M-POS and Nukkad Shops Ecommerce solutions**. Since **2017**, our company has offered cost-effective and advanced solutions and services to retailers, cafes, restaurants, etc. Our Dino M-POS is an advanced device for all cafe and restaurant businesses. This M-POS system offers the following features to our customers:

Software

* Manage the pricing of various seating orders.
* Menus can be added and customized.
* Permissions for employees are set.
* Organize everything from servers to cooks.

Hardware

* Quad-core processor for dependable performance and seamless application operation.
* For uninterruptible connectivity, use a WIFI-equipped POS.
* For great reliability and smoother operation, choose a multi-touch screen.
* Internal or external printers can be customized to fit your needs.
