**Green Plastwood** WPC Deck Tiles is the quick and simple solution if you want to transform your balconies or rooftops. Green Plastwood WPC provides a range of WPC Deck Tiles with a series of color and wood grain for selection. The installation is very easy as far as the flat surface are concerned, simple steps can complete the outdoor floor laying and no need to use other tools.

**Green Plastwood** WPC Deck Tiles have a non-slip deck surface that can be used as a non-slip floor next to the swimming pool. High strength plastics interlock frame at the bottom facilitates air circulation and water discharged from the bottom.

**Dimensions**

: 300 mm x 300 mm

**Surface Finishes**

: Brushing

**Colour**

## Deck Tiles – Applications

### Swimming Pool

### Seating

The Deck Tile is relatively easy to install Using its four Side Interlocking base making it very user friendly. Each side has two male and female connectors that connect to an adjacent tile, these connectors are circled in Diagram 1.

Diagram : 1

Place the first tile in a corner of flush along the edge of the area you will be installing as shown in Diagram 2.

Diagram:2

Next take another tile and determine which type of pattern / style you like to do. Vertical is shown in Diagram 3 and horizontal is shown in Diagram 4.

Diagram : 3

Diagram : 4

Now, take the second tile and align the connectors up with the first tile as shown in Diagram 5.

Diagram : 5

Then, attach the first two connectors into each other as shown in Diagram 6, you might need to lift up on of the tiles to get a better Grip.

Diagram : 6

**Green Plastwood** WPC hollow profiles are the perfect materials for pergolas, gazebos and elevation features. Our light weight selections replace heavy steel frames or wood which demand periodic maintenance and painting to avoid deterioration from exposure to weather or corrosion, with a wood appearance that requires little maintenance, Green Plastwood WPC retain natural wood aesthetics in terrace and garden pergolas, cantilever features, car parks, features of buildings and other applications.

**Dimensions** : 48 mm x 38 mm  
**Standard Length** : 8ft, 10ft
