About Us

Established in 2011, Technomech International is carved a niche as a recognized Manufacturer, Exporter, Wholesaler, Importer, Distributor and Service Provider of a qualitative range of Industrial Valve, Pipe Clamp, Metal Connector, Hose Pipe Assembly, Mounting Channel Rail, NDT Service and Repairing Service. Due to their rugged structure, easy installation, precise design, high tensile strength, corrosion resistance and high durability, the provided products are widely acclaimed and demanded amongst our customers. Under the guidance of our talented professionals, the provided products are developed in compliance with predefined industrial standards by using qualitative raw materials and innovative techniques. The offered products are widely utilized in diverse industrial applications and are available at most economical prices.

We have developed a huge and modular infrastructural base that comprises diverse functional divisions. Our modular production unit is outfitted with required facilities and advanced techniques to accelerate the manufacturing process and improve the quality of offered products. We have a crew of highly talented and qualified professionals, who work closely with patrons to recognize their demands and provide the products accordingly. Our quality examiners conduct different tests on provided products using latest testing equipment before delivering them to customers. Our rich industry knowledge and huge expertise have assisted us to attain the utmost satisfaction of our patrons. Under the expert leadership of our mentor, Mr. Mirza Aslam, who has huge knowledge in this domain, we have carved a trusted niche for ourselves in this domain.
