

HOSES & HOSE ASSEMBLIES

➤ Very High Pressure Hose Assemblies

➤ **PTFE Hoses-** High Physical Strength, Fire Resistance, Moisture Resistance, Longer Life, Good Corrosion characteristics, Resistant to abrasion, penetration & damage

➤ **Industrial Hoses-** Applications- Air Water,, Oil Acid, Cement Barite Barite etc upto 10 inches with end fittings in carbon steel and stainless steel

➤ **Hydraulic Hoses-** High Tensile Strength, Corrosion Resistance, Chemical Resistance
Material: SS 304, SS 306, MS

➤ **Food Grade Hoses-** Durability, sturdiness, Optimum resistance to wear & tear
This product is fabricated using high quality Teflon

➤ **Ducting Hoses-** Range from 38mm to 1000mm diameter in 4 to 15 meters.
PVC Hoses, High Temperature Silicon Hose, High Temperature Neoprene Hose
