## About Us

Established in 2014, Varun Remedies has managed to establish its reputation in the domestic market as a solid supplier of water purification tablets. With our headquarter in Bhopal, Madhya Pradesh, we are a manufacturer and supplier of Water Purification Tablets and Sodium Dichloroisocynurate Tablet. Due to their effectiveness against a variety of bacteria, viruses, and parasites, these products are highly sought after by chemical businesses, laboratories, and pharmaceutical firms. Our goods offer a wide range of advantages, such as precise pH value, perfect composition, high solubility and other characteristics.

We have become one of the leading manufacturing companies due to the effectiveness of our innovative R&D facilities. The client-centric strategy and shared value system that hold us accountable to meeting the long-unmet demands of our esteemed clients are another major factors in our benchmarking performance. Our interdisciplinary team of experts works hard to explore technological developments that help us create the most potent compounds. In addition to the efforts of our customer experts, we also take great pride in our warehousing facilities and packaging division. These units make it possible for Varun Remedies to store their goods in a systematic manner and ensure the safety of the products.
