

Twin Screw Extruder

We are a leading manufacturer, supplier, and exporter of mechanically engineered Twin Screw Extruders. These machines are widely used in the food, medical, and plastics industries for efficient mixing, processing, and compounding of viscous materials. Known for robust construction, reliable performance, and long service life, every machine is tested to ensure consistent operation and productivity.

Rigid PVC Pipe Twin Screw Extruder Machine Details

Model	52/18	52/22	52/25	65/18	65/18	65/22	68/28	90/22
Screw Dia (mm)	52	52	52	65	65	65	68	90
L:D Ratio	18:1	22:1	25:1	18:1	18:1	22:1	28:1	22:1
Max Output kg/hr	90-110	120-140	160-170	160-170	180-190	225-240	325-350	425-450
Motor (HP)	15	15	20	25	30	40	50	75
