# About Us

Industrial chemicals such as Potassium Carbonate, Calcite Powder, Phosphoric Acid, Nitric Acid and more are offered by Ganesh Enterprise. Although we have not spent much time in the chemical industry but in a couple of years we have grown tremendously as a manufacturer and trader. Our sudden growth and development have been underpinned by our ability to supply what our customers demand and when they need it. Our customers are at the heart of everything we do and we do everything to provide them a high level of customer care. We forge relationships by prioritizing our customers, meeting their needs and by adding value to their business.

Located in Ahmedabad, Gujarat, Ganesh Enterprise is committed to providing customers precisely composed range of White Calcite Powder, Sodium Metabisulphite, Phosphoric Acid, Potassium Sulphate and more at the most competitive prices. All chemicals are formulated in our special well-equipped laboratory wherein all operations are seamlessly completed under the aegis of experts. Although we do not have a big team but our employees work hard to finish all tasks allocated to them, within the given time frame. Their commitment and desire to grow help us succeed in delivering excellence, at all times.

## Charging Reasonable Price

We always walk miles to ensure their requirements for chemicals are fully satisfied, at the prices they expect. Our price structure is thoughtfully planned while keeping in mind various factors, of which market dynamics and clients budget constraints are few.

## Safe Doorstep Delivery

Safe delivery of Calcite Powder, Nitric Acid and more Industrial Chemicals, is assured by us. Keeping this in mind, we make use of strong packaging such as plastic and glass containers that do not degrade with time. Besides, air tight capping is used to prevent spillage or evaporation. Also, we keep in touch with reliable logistics companies which help us in making our chemicals reach to numerous locations, safely and timely, in pristine conditions.
