## About Us

With a family legacy of over 60 years in the food and commodity industry, Froasia is built on generations of experience and trust. Our roots lie in trading and manufacturing across sectors like sugar, jaggery, edible oils, real estate, and import-export. This deep foundation laid the path for our expansion into the frozen food sector where different cuisines meet innovation to serve modern consumers. We deliver ready-to-cook meals that are packed with flavour, freshness, and authenticity. What sets us apart is our commitment to quality from sourcing the finest ingredients to using advanced freezing technology that locks in taste and nutrition. All Tummito products are hygienically prepared, preservative-free, and require minimal cooking time.

In 2024, founders Sameer Patel and Gourri Patel launched Tummito to deliver flavour-rich, hassle-free meals. Starting with city-limited deliveries, we've rapidly grown across multiple states driven by taste, freshness, and quality service. Our range offers variety, reliability, and comfort whether you're craving snacks, traditional dishes, or hearty meals. With easy storage, long shelf life, and great flavour, Tummito brings comfort and culinary delight into every kitchen.
