## About Us

Fixit Engineering, being one of the well-known manufacturers and exporters that was established way back in the year 1989 to serve food and pharmaceutical industries. Our product portfolio includes Mass Mixer, Tablet Multi Mill Machine, Laboratory Equipments, Granulation Machine, etc. We have thereby built up a robust global presence in over 44 countries and have successfully implemented our creative solutions in a number of manufacturing houses. We proud of our young, energetic staff of professionals who are keen about excellence in engineering. We have in our team qualified technicians, engineers, and support personnel that share ideas toward creative solutions. We ensure the best possible service and assistance to our clients by their knowledge and commitment.

The company history contributed to long-lasting as well with the companys commitment to developing high-quality products and continuous investment in developing new technologies to help the usage of machinery by operators. All this contributes to benefits in terms of easier maintenance and faster manufacturing times. Outstanding after-sales service assistance sets us apart from the rest of the competitors. We are enamored with the change innovation brings and how it offers life transformation through changing societys needs. We are motivated and fueled by having the passion of pushing limits to make better lives for people all over the world. In the process, we add value to our product and help improve the food and pharmaceutical industries as a whole. And so, we take this trek along an exciting journey, setting new standards for technical innovation while better serving you.
