About Us

ESSTO Engineering was founded in the year 2008 because of serving TMT manufacturers with its innovative Copper Electrodes Lug for TMT Roll Knurling using the Roll Branding machine. After getting a great response from several reputed TMT manufacturers, we developed a manufacturing set-up in ESSTO ENGINEERING UNIT-II in 2011. With innovative and creative development inference, ESSTO strives to provide excellent design, superior quality, and perfect customer service.

Our company is delivering enhanced value to customers' applications through engineered solutions, like consumables of TMT RIB cutting and roll branding. At the proprietary, independent unit run by Mr. Suman Kumar, the engineers spend some time in understanding the application requirements of customers in order to deliver an efficient and cost effective solution that provides needed results and long-term value. Our company situated in Burdwan, West Bengal (India), manufactures customised Solutions of TMT Roll Branding and Notching Consumables like Name Branding Copper Electrodes, Arbour, Carbide Notching tools, CBN Inserts etc. and many more consumables needed for different machinery, like CNC RIB Cutting Machine and Roll Branding Machine.
