

EVO SURFACES™
AN EVOLUTION IN LUXURY

An abstract, high-contrast image of a jagged rock formation. The rock is illuminated with vibrant purple and blue light, creating a dramatic, ethereal effect. The lighting highlights the rough, textured surfaces and sharp edges of the rock, which appears to be floating or emerging from a dark, shadowy background. The overall composition is artistic and modern, emphasizing the natural beauty and ruggedness of the material.

TIME LESS INNOVATION

Redefining Solid Surfaces with exceptional quality

EVO SURFACES™
AN EVOLUTION IN LUXURY

Where Innovation Meets Timeless Elegance

Established in 2016, Evo Surfaces has rapidly ascended to become the industry's fastest-growing Solid Surface brand.

Designed with architects and interior designers in mind, Evo provides a distinct platform for transforming creative ideas into reality.

Evo Surfaces also addresses past issues, such as material yellowing and surface staining, thanks to its high-quality materials, ensuring long-lasting and pristine results.

DIFFERENT TYPES OF SOLID SURFACES

1

Non Bendable EVOLVE

- Cannot Be moulded
- Changes colour/ turns yellowish over a period of time
- Only be used in the interiors
- Catches Haldi stains that can only be removed by polishing the surface again

2

BENDBALE EVO FLEX

- Can be moulded.
- White does not turn yellow although dark colours might develop white spots over time
- Not recommended for exterior facade application.
- Catches Haldi stains that can only be removed by polishing the surface again

3

BENDABLE EVO LUXE

- Can Be easily moulded
- No yellowing/ Colour fading even after years of application
- Whites can be used in the exterior facades.
- Haldi stains if any can be cleaned by rubbing a cloth with sanitizer on it
