About Us

Incorporated in the year 1988, we have high industry expertise in manufacturing as well as supplying high quality Electronic Weighing Machine. Our range of products includes Table Top Weighing Machine, Micro Computer based Crane / Scales, Platform Scales, and many more. Moreover, we are specialized in products like Table Top Model, Lorry Weigh bridge, Tank / Silo / Hopper Weighing System, Batch Weighing System and Electronic Mechanical Weigh bridge. All these products are manufactured with cutting-edge technologies and strain gauge type Load Cells are fitted in the same. For assuring high quality, we obtain our raw materials from noted companies like BLH, USA and HBM and W.Germany.

Assisted by a team of professionals, we have the capability of offering products starting from small machines to heavy duty machines, which are featured with 200 tones for weighting of Truck, Trailers as well as Rail Wagons. We have constructed a modern manufacturing facility and this helps us to complete bulk of orders within stipulated period of time. In addition to this, we regularly meet the needs & requirements of the customers with wide distribution network for sales as well as services. We have six regional offices around the nation and for our cost effective and high quality products, we have garnered a large number of customers in the major Indian cities like Mumbai, Maharashtra, Goa, Gujarat, South India, North India, and MP etc. Designed with utmost care, our products are widely used in automatic LPG filling machines, automatic batching plants, level measurements with high-low level alarms as well as automatic cut off for storage tanks. Under the visionary guidance of our respected mentor, Mr. Anand R Agarwal, we have achieved fast business growth as well as wide market reputation. Only for his initiatives and inspiration, we have expanded our horizon to the export market of Africa, U.A.E., South-East Asian Countries and other Middle East Countries.
