About Us

Sigma Green India Technology Private Limited, established in 2023, is a dynamic Manufacturer, Supplier, and Service Provider specializing in advanced water and waste management solutions. Since our inception, we have focused on delivering environmentally responsible technologies that support sustainable industrial and commercial operations. Our expertise spans across water treatment, wastewater management, and organic waste processing systems designed to meet modern environmental standards. With a progressive outlook and solution-oriented approach, we are steadily strengthening our position in the environmental engineering sector.

We offer a comprehensive portfolio of products and systems, including Multigrade Sand Filters Mgf, Industrial waste Water Treatment Plant, Sludge Treatment Plant, Organic Waste Composter Machine, Wet Waste Composting Machine, and more. Each system is engineered for operational efficiency, durability, and compliance with environmental regulations. Our solutions are designed to enhance water quality, reduce waste impact, and promote sustainable resource utilization.

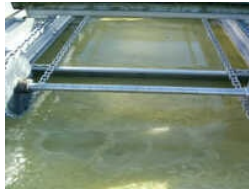

Key Facts

No of Staff	15
Year of Establishment	2023
OEM Service Provided	No

Our Products

**Sewage Wastewater
Treatment Plant**

**Dissolved Air Flotation
Unit**

DAF System

**Prefabricated Sewage
Treatment Plant**

**Biological Sewage
Treatment Plant**

**Industrial Effluent
Treatment Plant**

Industrial Etp Plant

Water Treatment Plant

**Compact Sewage
Treatment Plant**

**Sewage Water
Recycling Treatment**

**Dissolved Air Flotation
Units**

**Zero Liquid Discharge
Treatment Plant**

**Effluent Treatment
Plant**

Etp Chemical

**Effluent Treatment
System**

**Sewage Treatment
Plant Installations**
