| Number                             | 2 (Can be used as additional digital input) |
| <b>Analog outputs</b>              |                                             |
| Number                             | 1                                           |

### Ambient conditions

|                            |                                |
|----------------------------|--------------------------------|
| Cooling                    | External fan                   |
| Installation altitude      | 1,000 m (3,280.84 ft)          |
| <b>Ambient temperature</b> |                                |
| Operation <sup>2)</sup>    | -10 ... 60 °C (14 ... 140 °F)  |
| Storage                    | -40 ... 70 °C (-40 ... 158 °F) |
| <b>Relative humidity</b>   |                                |
| Max. operation             | 95 %                           |

### Connections

|                                |                   |
|--------------------------------|-------------------|
| <b>Max. motor cable length</b> |                   |
| Shielded                       | 50 m (164.04 ft)  |
| Unshielded                     | 100 m (328.08 ft) |

### Mechanical data

|                      |                                                               |
|----------------------|---------------------------------------------------------------|
| Mounting position    | Through-hole mounting / wall mounting / side-by-side mounting |
| Degree of protection | IP20 / UL open type                                           |
| Frame size           | FSE                                                           |
| Net weight           | 6.24 kg (13.76 lb)                                            |

### Dimensions

|        |                     |
|--------|---------------------|
| Width  | 245.0 mm (9.65 in)  |
| Height | 264.5 mm (10.41 in) |
| Depth  | 209.0 mm (8.23 in)  |

### Standards

|                           |                                          |
|---------------------------|------------------------------------------|
| Compliance with standards | CE, cULus, C-Tick (RCM), KC              |
| CE marking                | EN 61800-5-1 / EN 60204-1 and EN 61800-3 |

Data sheet for SINAMICS V20

Article No. : 6SL3210-5BE31-8UV0

| Converter losses to IEC61800-9-2*                    |        |
|------------------------------------------------------|--------|
| Efficiency class                                     | IE2    |
| Comparison with the reference converter (90% / 100%) | 41.0 % |

The percentage values show the losses in relation to the rated apparent power of the converter.

The diagram shows the losses for the points (as per standard IEC61800-9-2) of the relative torque generating current (I) over the relative motor stator frequency (f). The values are valid for the basic version of the converter without options/components.

\*calculated values

<sup>1)</sup> The output current and HP ratings are valid for the voltage range 440V-480V

<sup>2)</sup> Please observe derating at temperatures of 40 °C or above
