

Personal Evaporative Air Cooler

PRODUCT SPECIFICATION & 4-ANGLE VIEW REFERENCE SHEET

HIGH-EFFICIENCY COOLING

TECHNICAL SPECIFICATIONS

160W

Power Consumption

35 Litres

Water Tank Capacity

Honeycomb

Cooling Media

3 Speeds

Airflow Control

KEY FEATURES

- **3-Speed Rotary Control:** Ergonomic top dials for precise control over fan speed, pump, and swing functionality.
- **Dense Honeycomb Cooling Pad:** High-absorbency rear cooling pad for maximum evaporation efficiency.
- **Multi-Angle Ventilation Slats:** Front motorized louvers deliver wide airflow coverage across the room.
- **Water Level Indicator:** Side-view water window for easy monitoring of tank capacity.

OPERATION & MAINTENANCE

- Fill the tank with clean water via the dedicated inlet before turning on the pump switch.
- Position near an open window or door to ensure proper cross-ventilation.
- Drain water completely using the bottom drain plug if leaving unused for extended periods.
- Clean the honeycomb filter pad periodically with mild water flow to prevent dust accumulation.

OPTIMAL PERFORMANCE TIP: Ensure adequate room ventilation by keeping windows or doors open while the air cooler is operating for maximum cooling efficiency.
