About Us

Pharmaceutical Industry is one such industry which includes not only formulations and medicines but also other products which helps in taking and packing products. A company well informed about the importance these products has brings forth only quality assured products is **Neelkanth Polymer Industries**. We are newly established **manufacturer, exporter and supplier**, serving in the Indian market **Pharma Packaging, Pharmaceutical Dropper, Oral Syringe, Dropper Assembly, Measuring Cup and Dropper Cover**.

We have direct contacts with medical institutions and healthcare facilities for providing delivery of aforesaid products. Along with this, we supply our range to retail merchants and wholesalers so that the demands of regional markets are met properly. All our offered products are available in different sizes, colors, capacities, materials and designs. Customers as per their requirement can choose from a wide variety we offer to them.

An ISO 9001:2015 Certified Company

ISO certification plays a key role for all manufacturing companies as it offers certainty of a company developing products following a set of rules and regulations. We as a pharma products manufacturing company feel privileged to inform our valued clients that we have received ISO 9001:2015 for following proper quality management system. All our products, from Pharma Packaging, Pharmaceutical Dropper to Measuring Cup and much more are made as per latest trends and using quality best rubber and plastic.

Worth Trusting Company

Neelkanth Polymer Industries is a company worth relying on because of the following points given below:

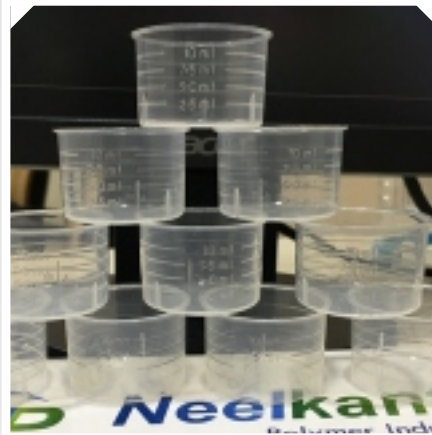

Quality Materials- We are in the habit of using quality best rubber, plastic and many other materials for making reliable quality products. These materials are bought from established companies.

Modern Technology- Being a new company, we have invested a good amount in all latest technologies so that quality items are created.
