## About Us

Sigma Trading & Machinery is a privately owned engineering firm that forayed into the field of manufacturing in the year 2015. Sigma Machinery deals in the manufacturing and exporting of a wide range of packaging machines. Our highly efficient machines ensure the safety and security of food items like toffees, biscuits, noodles, frozen foods, lubricants, oils, ketchup, cakes, mouth fresheners, shampoos, tray items, dry fruits, spices, electrical items and allied products through standardized and secure packaging.

Taking into cognizance the need and vitality of safety of packaged food products and to prevent them from getting spoiled or becoming unsuitable for consumption Sigma Machinery Technology manufactures machines with safety as the prime motive. We also understand the importance of presentation, which is why the machines manufactured by us fulfill the basic requirement of packaging by ensuring both safety and visual appeal of the packaged product. Since we offer customized machine manufacturing solutions, we consider each and every requirement of the client so as to deliver equipment matching their needs and expectations. Besides, we undertake detailed research & development to keep pace with the emerging global market trends. This helps us in delivering machines matching global standards of quality, efficiency and speed.
