# Premium/Luxury Soaps Bars

Soap is one of the oldest & most important cosmetic & personal care products. Soap is a product used in conjunction with water for washing and cleaning. It usually comes in a solid molded form (bar soap) but may also come in the form of liquids dispersed from dispensers. Soap typically contains surfactant that, when applied to a solid surface in combination with water, wets the dirt & effectively holds particles in suspension so it can be rinsed off with clean water. We can make simple nice & hand-crafted premium soaps with good effective ingredients to make it purposeful for premium clients.
