About Us

We, Wintech Engineers, have been working as a distributor, supplier, and dealer in the industrial supplies sector, since 2005. We provide Chamber Fluid Coupling, Boiler Feed Pumps, Hollow Shaft Geared Motors, Kirloskar End Suction Pumps, Helical Cooling Tower Gear Box, and many others. Our offered range conforms to stringent quality standards and finds applications in the paper, sugar, and food industries, apart from the other process industries. Through our commitment to market research, use of cutting-edge technology, and high-quality products, we have been able to delight our clients. Our objective is to provide high-quality products at market-leading rates by procuring the range from the most reliable manufacturers in the industry.

We have a team of experienced procurement agents, who work constantly to procure supreme quality products. Also, we have professional storekeepers, loading-unloading experts, accounts professionals, and many other experts, who work dedicatedly to run our operations. With their hard work, we have been able to create a strong market presence and serve numerous customers.
