# JAISSWAL TRADE — CORPORATION —

## About Us :

Ever since our inception i.e, since last one decade, we, **Jaiswal Trade Corporation**, have been serving all our **national and international customers** with pride and pleasure and due to that we have attained a remarkable position in the market. The broad assortment of **industrial pipes and fittings** that our company deals in include **Ductile Iron Pipes, Cast Iron Sluice Valves, Cast Iron Fittings, Cast Iron Pipe Fittings** and many more. Amongst a chain of noteworthy pipe and fittings providers we are the most trusted Trader as we always end up providing superior goods to the buyers. Our products of **Ductile Iron Pipes** are manufactured by **Tata Metalic** and **Rashmi Metaliks Ltd.** Our products are sold direct to KMDA Contractors as well.

## Warehouse

We have an in-house warehousing facility to keep the the acquired **Ductile Iron Pipes** and other **pipe fittings** safely and in bulk quantities so that we can meet with urgent market demands in **Hooghly, West Bengal**. Further, we guarantee of goods being dispatched from our warehouse are always free from defects as its structure is closely examined by our quality keepers.

## Customer Trust and Satisfaction

Winning the customer trust and satisfaction is the ultimate agenda of our organization and we are working hard to attain these two objectives and back ourselves with a large client base. Currently, we have our clients based in different parts of the country and to each one of them we serve with honesty and pleasure. We have gained some of the most prestigious and humble clients, who have complete faith on our product's quality and our services. Being a customer-friendly firm, we take completely note of their requirement and try to provide them with exactly the same products.

## Primary Competitive Advantages

In just one decade, we have attained massive success and good recognition in the market and the factors which have been contributing in our success and that gives us an edge over others are discussed below:

- **Consistency in quality** : Right from the start we have maintained the quality of our products.
- **Honesty with customers** : We are always honest and loyal with our customers.
- **Timely delivery of goods** : To all our customers based in any part of the country we deliver the goods on time.
- **Business Transparency** : We focus on maintaining complete business transparency.
- **Meeting customer requirements** : We ensure that our customers get their desired pipes and fittings at economical prices.

## Other States
