## About Us

We at Sairaj Enterprises aspire to lead the global markets with our work of utmost integrity, innovation and authenticity. Our purpose is to make supreme quality of transformer parts & varied electrical products available in local, national & foreign markets at cost-saving rates. We are rising & thriving in the respective marketplace by working progressively as a manufacturer and exporter. By combining latest technology with modern industrial standards and production methods, we are continuously bringing superior performing products in the marketplace.

The assortment in which we are dealing includes Power Transformer OLTC Spares, OLTC Intank Tapchangers, Three Phase OLTC Motors, Electrical DSS Switches, Tap Position Indicators and more items. All the products are designed & developed at our ultramodern facilities in adherence to all required norms, regulations and policies that are set in the electrical industry. The materials and components that we use for the development of our items are of topmost quality as well. Our team of designers, technicians and quality controllers work collaboratively to pull out the most efficient, reliable and useful range of products on daily basis. The facilities & resources that we have enable us to meet any of the urgent or specific requirement of customers without any compromise in process.
