Life Sketch

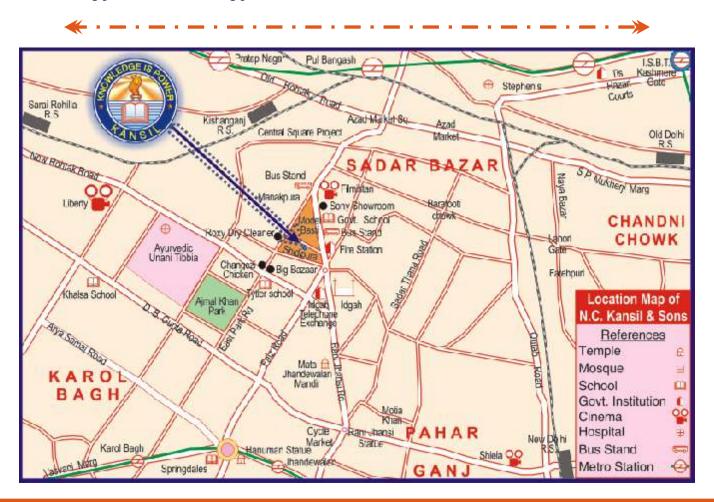

Dear Patron,

We present our new Science Catalogue for Jul-Sept, 2020 with great pleasure and confidence. Our products and variety is far superior and effective than those of others.

This year we have added many models in our \mathbb{Z}_X range of models. Please note we are owners of \mathbb{Z}_X range of models & \mathbb{Z}_X is our Trademark. Many new models have been introduced this year. Kindly scroll though the catalogue and look for \mathbb{Z}_X symbol to know about new products.

We have learnt from the feedback that someone has duplicated our Community Health and Environmental Sanitation Models. We suggest you to kindly look for logo & our company hologram on the products before making purchases.

We welcome your advice and cooperation in further expanding the range of our products. We are sure that all the articles will be very useful for your Institution. Thanking you and assuring you of our best services.

SCIENCE AND TECHNOLOGY CHARTS

Size 58 × 90 cm (In English only)

The charts aim at familiarising students with the subject in a very realistic way and in social context. These delineate the process of life and of the technology that conditions our world today. The students will come to know the intricacies of the phenomenon and how it can be best used for the benefit of mankind. Using the latest printing technology the charts are printed on art paper in full colours and are duly laminated on both sides with thick plastic film and are fitted with plastic rollers.
