## About Us

Since the establishment of our company, S. Kumar Engineering Works back in the year 1988, we have been partaking in the production of a variety of medical equipment. Through manufacturing equipment that are most appropriate for conducting operations and treating patients, we have established ourselves as a reputable manufacturer, trader and exporter. The selection of medical equipment that we make available includes Medical Electric Alarm, DIN Standard Gas Outlet, Oxygen Flow Meter, OT Panel Gas Outlet, Medical ICU Bed Head Panel System, Pneumatic Brake Arm Pendant, etc. At our manufacturing plant, we have fitted high end machinery to meet international quality requirements. Precise measurements, high efficiency, smooth running, ease of operation, reliability and easy maintenance are some of the attributes that make our products popular worldwide.

Over the years, we have acquired precious trust from our valuable customers by ensuring our produced goods meet with the highest levels of quality. We perform multiple quality tests on each end product including Oxygen Flow Meter, Medical ICU Bed Head Panel System, Medical Electric Alarm, Pneumatic Brake Arm Pendant, OT Panel Gas Outlet, etc., so that all our customers are satisfied with our company. This is assured by our team of quality controllers that checks that every procured good is as remarkable as the previous one.

Because of our tremendous domain knowledge, we grasp the specific demands of the clients and work hard to satisfy them with exact solutions. We follow a customer-centric attitude, which enables us to win the confidence of our customers and become their favorite brand. With all our in-house facilities, we produce all the specified items in accordance with their requirements. Thus, because of all these reasons, we have been able to build a trusted client base, worldwide.
