## ELECTRIC PRESSURE TESTING PUMP

### Product Description

- Suitable for water or hydraulic oil as medium, for all kinds of pressure vessel, pipe, valves, pressure test, etc. Also used for the hydraulic energy, provide the required pressure, suitable for chemical industry, building, water, oil, coat, metallurgy, ship-building and other industries.
- With compact reasonable structure, the test pump is easy to operate and light weight for carry.
- Convenient maintenance, electric test pump is driven by motor, greatly improving work efficiency.

NEP60

### Product Specification

Testing Range	0-60bar (860psi, 6Mpa)
Water Flow	2.9L/min
Valve	Brass, Single Type
Connections	1/2" BSPP
Power	250W Induction Type
Accessories	Pressure Hose, Pressure Gauge, Seal Set

NEP60A

### Product Specification

Testing Range	0-60bar (860psi, 6Mpa)
Water Flow	6L/min
Valve	Brass, Single Type
Connections	1/2" BSPP
Power	400W Induction Type
Accessories	Pressure Hose, Pressure Gauge, Seal Set

DESCRIPTION	NW(Kg.)
NEP60 Pressure Test Pump, 220V-50Hz	12
NEP60 Pressure Test Pump, 110V-60Hz	
NEP60A Pressure Test Pump, 220V-50Hz	17.5
