About Us

With innovation and technology as our core focuses, we, Green Metal Infra, have established a strong reputation across the market. Established in 2014, we are a leading manufacturer, supplier and wholesaler of Building And Construction Materials, Color Coated Profile Sheet, PEB Structure, Puff Panel, Self Taping Screw, Turbo Ventilator, and many more products. Our primary objective is to achieve the confidence of our clients by providing them with a premium grade product line within the scheduled time frame. In order to maintain long-term client relationships, we understand buyer requirements, give them the best possible solutions and more importantly, provide them with unparalleled after sales support.

As an innovative company, we always keep track of the latest trends and growing demand in the market. In the last eight years of operation, we have improvised and updated our product range multiple times to keep in line with the market trends. Today, our products are appreciated by our customers as they are corrosion free, light in weight and economical. We supply these products to various industrial and commercial spaces for different purposes.

To maintain our reputation in the market, we only use the most premium raw materials from the most reliable vendors across the country. The secret of our success lies in the hands of our talented team members who shortlist the vendors and function in sync under the supervision of our experienced leaders. We have also built a solid distribution network that allows us to deliver our products within the committed time-frame to any destination across the country.
